

It's a GOOD day.

Datric Introduces **AGILE DWS™** The Data Warehouse Solution (DWS) in a Box!

With Datric's **Agile DWS**, we've integrated the power of leading industry solutions from HP, Vertica, Tableau and SyncSort into one comprehensive package - you to deal with one company from sales through implementation to support. One source, one solution, one less headache. We provide **FAST** cost justification, **FASTER** data access and recapture of your investment, and the **FASTEST** implementation and transfer speeds you'll find anywhere!

Agile DWS is a complete solution with incredible data visualization, revolutionary metadata management, and the fastest data loading and access – all on a single, scalable platform:

- Accelerated implementation tools
- World record holding data loading software
- High performance data analytics engine
- High availability with automatic replication, failover and recovery
- Scalable from small projects to hundreds of terabytes
- Up to 90% data compression
- 50-200x faster queries
- Next generation data visualization BI
- A scalable, flexible data warehouse in 1 – 3 months
- Designed to grow with your business needs!

Agile DWS is world-class data warehousing, FAST!
For more information call 704-504-2464 or send an email to: AgileDWS@datric.com TODAY!

Agile DWS is Different – concept to production can be accomplished in weeks!

Agile DWS is the first **complete solution!** Not just an empty database, but especially selected and balanced software and hardware solution designed for rapid, cost-effective data solutions that quickly add value to your business.

- ✓ Complete solution
- ✓ Pre-defined content by industry
- ✓ Guaranteed implementation
- ✓ Single point of contact

The foundation of **Agile DWS** is **Agile Data Suite™ (ADS)**, Datric's patent-pending metadata lifecycle management software. A complete solution, **Agile DWS** includes:

- ✓ **Implementation** – 50% Faster with ADS, backed by Datric
- ✓ **Database** – High performance scalable database analytics engine
- ✓ **ETL** – High speed optimized extract, transformation and load
- ✓ **BI** – Interactive data visualizations, dashboards and analytics
- ✓ **Hardware** – Industry standard hardware

Fast - Agile DWS Solves Problems!

Accelerate your ROI and eliminate the problems and risks of data implementation projects. **Agile DWS** accelerates the processes of developing requirements, data models, data mapping and data governance. Hardware and software integration is eliminated. Concept to production can be accomplished in a just a few weeks.

Faster - Agile DWS Adds Business Value!

Data is the lifeblood of your business for both operations and new insights. Provide detailed data available faster with incredible easy-to-use visual analytics. Accessible *visual analytics* add value to your business. Insights and analysis are faster with fewer errors and better comprehension. Understanding and decision-making can improve by 10 – 100X!

Fastest - Agile DWS Makes It Simple!

Agile DWS is easy to start, easy to use and easy to grow over time. You get the fastest, most cost-effective and flexible solution. **Agile DWS** can easily be implemented in phases. **Agile DWS** is available as a service (SaaS) or as an appliance. You can even start with the service and convert to the appliance. Designed for scalability and seamless expansion over time, **Agile DWS** is the superior solution. Accelerate your ROI and use your data to increase business value with **Agile DWS**.

To learn how Agile DWS can be up and running faster than you ever thought possible, contact James Newland, VP Alliances and Solutions at 704-504-2464 or send an email to: AgileDWS@datric.com
